

AutoCAD 2018 Essentials

Powerful tools require powerful training, and Butler County Community College has created a hands-on course to ensure your employees get the greatest benefit from AutoCAD 2018.

Participants will develop the skills necessary to:

- ✓ Create 2D objects, text, and dimensions accurately and according to ANSI and SI standards.
- ✓ Perform basic editing, manipulation commands, inquiry commands and plotting drawings in model and paper space to scale.
- ✓ Create, manage, and manipulate blocks and symbols, external references, and translators.

9/12, 9/19, 9/26, 10/3, 10/10, 10/17, 10/24

Wednesday Evenings

6:00 – 9:00 pm
