2019 Harrisburg Grassroots Lobbying Trip

If there was ever a time when the small business community should band together with a common voice in the state capitol, it is NOW! We are the backbone of the PA economy and lawmakers must continually be reminded of the facts. They need to know how many employees you have, how you get customers, how you meet payroll, and what can be improved.

- *There are 1 million small businesses in PA.*
 - *99.6% of all PA employers are small businesses with less than 500 employees.*
 - *Small businesses employed 46.7% of PA's private workforce in 2015, 2.5 million employees.*
- ...U.S. Small Business Office of Advocacy-2018 Pennsylvania profile*
